SCIENTIFIC COMMITTEES

- 1. Intergovernmental Panel on Climate Change:** Lead Author - AR4 Co-ordinating Lead Author -AR5, Co-ordinating Lead Author – AR6, Co-ordinating Lead Author - Special Report on Climate and Land, Lead Author - Special Report on Renewable Energy Sources
- 2. IPCC AR6: Working Group III** – Mitigation of Climate Change
- 3. Commissioner** - Commission on Global Economic Transformation- Institute for New Economic Thinking (INET)
- 4. Fellow** – The Earth League
- 5. Future Earth** - Scientific Advisory Committee
- 6. Climate Crisis Advisory Group** - Inaugural Member

- Accomplished director with extensive experience in research and policy development as well as programme management.
- Political scientist with expertise in climate change adaptation and mitigation, energy planning, deployment of renewable energy resources, green finance and low-carbon development. Recent research focuses on stranded assets and the future of hydrocarbon resources and just transitions in developing countries, particularly in Africa.
- World-leading IPCC climate scientist with more than 20 years of experience in providing thought leadership and climate policy advice, producing scientific reports.
- Mobilised more than \$30 million for climate change and managed \$65 million programmes on minerals and extractives. Managed the largest climate change and adaptation in Africa programme of close to \$80 million.
- Proven track record of building development programmes (climate change and development, energy poverty, stranded assets, green transitions)
- Excellent people manager and high-level communicator.
- Led the largest annual intergovernmental conferences on sustainable development and led the largest climate change conference in Africa (respectively African Regional Forum on Sustainable Development and Climate Change and Development in Africa for four consecutive times)
- Named by Apolitical as one of the 100 most influential people in gender policy.

EDUCATION

Ph.D – Political Science

The University of Birmingham 1994 - 1998

Diplôme d'Etudes de 3ème Cycle - M. Phil Equivalent

Centre d'Etudes des Relations International 1993 - 1994

Diplôme des Etudes de Relations Internationales - Masters Equivalent

Ecole des Hautes Etudes International 1991 - 1993

Etudes des Lettres Modernes - Littérature – Civilisation, Anglais,

Université de Paris IV – La Sorbonne, Paris, France. 1990 - 1994

Diplôme d'Université de Traducteur (DUT)

Université de la Franche Comte – Besançon, France 1988 - 1990

Diplôme de 3ème Degré

Université de Cheikh Anta Diop, Dakar, Sénégal 1986 - 1987

Diplôme de 2ème Degré

Université de Cheikh Anta Diop, Dakar, Sénégal 1985 - 1986

A-level

Gambia High School 1983 - 1985

KEYNOTE LECTURES (selected)

- 1. Climate change - Peace, Justice and Strong Institutions** – Model International Union Conference, Ghana International School- Accra, November 2019.
- 2. Protecting the world from crisis – new fields of engagement for a sustainable foreign policy, April 2019**- Adelphi, Berlin, April 2019
- 3. Intersections between climate change and security – beating the climate change odds** – Institute for Security Studies – Pretoria, June 2017
- 4. Walking together towards climate action** – Walker Institute, Reading, January 2017
- 5. 2016 Borlaug Dialogue Speakers – World Food Prize,-** October - De moines, Iowa, USA.
- 6. Generation Science: 'empowering Africa's future scientific leaders'** – Planet Earth Institute - London, July 2016
- 7. Breaking out of development silos** – IIED Development and Climate Days – COP21, Paris 2015
- 8. Paris Agreement and what it means for Africa** – University College London, London, March 2015
- 9. Moderated several high level panels including Delhi Sustainable Development Summit 2014** – Moderated discussion with Nobel Laureat Professor Yuan Tseh Lee – Delhi, February 2014
- 10. Adapting to a warmer world** – Stanford University, April 2012
- 11. Berlin Summer Dialogue 2011 – Adaptation to Climate Change** – New Structures of International Cooperation- Berlin 2011
- 12. Adaptation, Mitigation and low carbon development** - Africa Adapt, Addis Ababa - March 2011

WORK EXPERIENCE

United Nations University – Institute for Natural Resources in Africa

Position: Director

Duty Station: Accra, Ghana

Period: September 2018-to date

As an accomplished senior manager in the UN system, and Director of UNU-INRA, I am the chief administrator and chief intellectual officer responsible for designing the institute's programmatic work and providing intellectual coherence across its portfolio. UNU-INRA is one of the fourteen institutes and is the only one with an Africa-wide mandate, hence is located in Africa.

As Director, I manage an interdisciplinary team at the Accra headquarters, as well as the teams and coordinators of UNU-INRA's five Operating Units: notably including the Institut de Technologie Alimentaire (ITA) at University of Cheikh Anta Diop; the Sam Nujoma Marine and Coastal Resources Research Centre at University of Namibia; the Mineral Resource Unit at University of Zambia; the Centre Ivoirien de recherche economique et sociale at the Ivorian Centre of Economics and Social Sciences (CIRES) at the University of Cocody; and the Department of Computer Science at the University of Yaounde.

Key responsibilities and achievements:

- Leading and coordinating the production of major high impacts strategic reports and foresight analyses on stranded assets and green transitions towards low-carbon development
- Providing managerial and intellectual support to the UNU-INRA team and the units on the ground across Africa
- Identifying strategic policy directions for mainstreaming knowledge into natural resource planning.
- Leading institutional efforts in resource mobilisation strategy and identifying partnership opportunities to leverage support for UNU-INRA's research.
- Representing UNU and UNU-INRA in key international conferences on sustainable development and natural resource management.

United Nations Economic Commission for Africa

Position: Director - Special Initiatives Division (SID)

Duty Station: Addis Ababa, Ethiopia

Period: March 2013– September 2018

As former Director of the largest substantive division at UNECA, I led high-impact programmes and worked closely with key policy constituencies across Africa to facilitate policy mainstreaming and implementation in areas such as climate change, minerals and extractives, the green transformation and sustainable development.

In addition to conducting research and supporting member states in key operations work on natural resource management, I also led three strategic annual international conferences: Climate Change and Development in

Africa (CCDA), African Regional Forum on Sustainable Development (ARFSD) and Africa Mining and Development Conference.

Key responsibilities and achievements:

- Mobilised multi-million dollar grants - \$65 million towards the work co-ordinated by the African Minerals Development Centre – (Canada and Australia main funders)
- Mobilised more than \$30 million towards the work conducted at the African Climate Policy Centre (ACPC- funders: former DFID, EU, Norway, Sweden and the Nordic Development Fund)
- Provided managerial as well as intellectual and research support at the Special Initiative Division of the UN Economic Commission for Africa, a division comprising of two Centres, the African Climate Policy Centre, the African Minerals Development Centre, covering respectively the Green Economy and Natural Resources and New Technologies and Innovations sections.
- Coordinated and led support to African Small Island Developing States in the provision of numerical weather predictions and climate data.
- Led responses of member states on mainstreaming climate change in national development plans and provided advisory services on how countries can make the transition towards inclusive green economies.
- Identified and leveraged work on strategic policy spaces and designed implementation strategies through which climate change opportunities and green economy transitions can be retailed to African governments within the context of UN ECA's flagship conference, such as the Conference of Ministers, Climate Change and Development in Africa, African Regional Forum on Sustainable Development, African Union Summits and policy engagement workshops.
- Supported policy-making constituencies in governments across Africa, including serving as technical support to the African Group of Negotiators on Climate Change.
- Took the intellectual lead in the design and coordination of climate change, agriculture and trade initiatives in East African Communities (EAC) and Economic Communities of West African States (ECOWAS).

United Nations Economic Commission for Africa

Position: Co-ordinator: African Climate Policy Center (ACPC)

Duty Station: Addis Ababa, Ethiopia

Period: October 2012–June 2016

At ACPC I spearheaded multiple initiatives that were instrumental in mainstreaming climate change into development policies across Africa, including creating strategic convening spaces to formulate response strategies for climate change.

I also provided intellectual leadership for several knowledge products on low-carbon development, green economy, partnership with the BRICS, and green infrastructure, notably a unique product documenting Africa's evolving position over 20 years of climate change negotiations.

Key responsibilities and achievements:

- Initiated Young African Lawyers (YAL), a capacity-building programme to provide technical backstopping to the African Group of Negotiators, including critical support services in negotiating text on climate change related to loss and damage, climate change adaptation and mitigation, and means of implementation.
- Initiated and coordinated an operational early warning and infrastructure for the delivery of climate information services in African Small Island Developing States.
- Provided intellectual leadership and capacity-building support to Weather and Climate Information Services, a UK-funded initiative to transform the use of climate information to support socioeconomic

- development.
- Spearheaded an initiative to assess the economic value of climate information and related services for various sectors and to develop a common pan-African framework.
 - Oversaw the training and capacity-building of parliamentarians, the African Group of Negotiators on Climate Change, policy-makers and legislators on climate information services.
 - Launched an ACPC pan-African fellowship programme, conceived and coordinated the ClimDev Africa Youth Platform (ACLYP), a regional platform for interactions between African youth networks on climate change.
 - Led the implementation of Climate Research for Development (CR4D), an initiative to support climate research in Africa.
 - Supported the development of a methodological framework for Intended Nationally Determined Contributions (INDCs), and aided in preparing the INDCs for several African countries.
 - Conceived and provided intellectual leadership to strategic conferences such as African Climate Talks, with the aim of creating a policy space that would enable Africa to put forward a robust defense on critical issues at COP21.
 - Provided coordination and managerial support to the African Climate Resilient Investment Facility, a joint initiative with the World Bank on climate-proofing investments in infrastructure in climate-sensitive sectors.
-

International Development Research Centre (IDRC)

Position: Team leader

Duty Station: Dakar, Senegal – managerial co-ordination for regional offices in Dakar (West Africa), Cairo (North Africa), Nairobi (Eastern and Southern Africa), HQ - Ottawa (Canada)

Key responsibilities and achievements:

- Managed the largest climate adaptation programme in Africa valued at US\$75–80 million.
 - Designed a complex research portfolio that encompassed multiple themes and sectors to meet regional needs related to environment and natural resource management.
 - Delivered high-quality research outputs, including more than 50 peer-reviewed articles, books and several reports.
 - Supervised a multidisciplinary team of 12 professional and 11 administrative staff members.
 - Provided intellectual leadership to and supervised more than 100 projects and research initiatives across 35 countries in Africa.
 - Fund-managed the programme, authorizing and approving the disbursement of funds.
 - Led on managing public relations efforts and identifying knowledge dissemination channels for research products and policy strategies.
 - Led several capacity-building initiatives, including a continent-wide knowledge-sharing platform and fellowship programme on climate change.
-

United Nations Environment Programme – Risoe Centre (UNEP-RISOE)

Position: Senior Energy Scientist

Duty Station: Roskilde, Denmark

Period: March 2004–August 2006

Key responsibilities and achievements:

- Led on analytical work supporting the uptake of energy policies in African countries through the African Rural Energy Enterprise Development (AREED) project.
- Provided intellectual leadership on the design of decentralised energy system initiatives as a conduit to increase the deployment of renewable energy technologies in African countries.

- Reviewed policies of Small and Medium Energy Enterprises (SMEEs) as a means to broaden energy access and encourage the uptake of new technologies. Provided power sector advisory services to countries in Africa.
- Provided critical policy support and analysis on policy uptake for expanding energy access in rural and peri-urban areas in East and West Africa.
- Developed a Global Environment Facility (GEF) project on river basin adaptation, focusing on ways in which the degradation of water resources in three rivers basins – the Senegal River, Lake Chad and the Gambia River Basin- can be arrested.
- Produced an analysis of National Adaptation Action Plans for more than ten African countries.
- Was instrumental in developing a mapping exercise to identify climate hotspots and potential adaptation plans.
- Responsible for the research adaptation portfolio on building resilience in climate-sensitive sectors in several countries in Africa and Asia.

Enda Tiers Monde

Position: Program Manager

Duty Station: Dakar, Senegal

Period: October 1999–2004

Key responsibilities and achievements:

- Responsible for coordinating Enda's policy analysis in its work on energy and the environment.
- Initiated the first climate change and gender programme in Africa. Developed indicators and tools for a gender and energy policy compendium and tool kit.
- Provided research and analytical support to a number of policy initiatives related to the adoption of the Clean Development Mechanism (CDM) in Africa.
- Led the implementation of adaptation initiatives in the Sahel, emphasising a nexus approach between agriculture, energy and water.
- Designed and operationalised the implementation of waste-to-energy projects in Senegal and Kenya.
- Developed a sustainable energy project on the conservation of solid waste to reduce urban poverty.
- Worked on an Organization for Economic Co-operation and Development (OECD) project on the links between climate change and sustainable development in West African Economic and Monetary Union (WAEMU) countries.

University of Birmingham

Position: Lecturer

Duty Station: Birmingham, UK

Period: January–August 1997

- Taught political science and international relations to postgraduate students.
- Mentored and coached undergraduates.
- Developed study materials and delivered presentations to enable good learning delivery and the understanding of complex abstract information.

LINGUISTICS SKILLS

English: Fluent (native language)

French: Fluent (written and spoken)

Spanish: Basic understanding

AREAS OF EXPERTISE

Climate change and Development	Natural Resource Management	Gender and Development	Organisational leadership
<ul style="list-style-type: none"> - Climate policy – science-practice interface - Energy poverty and renewables - Adaptation and mitigation interrelationships - Green economy and green transitions - Climate vulnerability and resilience 	<ul style="list-style-type: none"> -Land degradation -Sustainable land management -Minerals and extractives - Resource governance - Stranded Assets 	<ul style="list-style-type: none"> - Gender and Energy - Gender and Climate Change - Intersections between Gender, Agriculture and Sustainable Development 	<ul style="list-style-type: none"> - Managerial and administrative leadership - Programme design and development - Resource mobilisation - Problem solving - Project development - Communications
