

COP24, Katowice (Pavilion H3)

IPCC Special Report on 1.5°C – Chapter 5

Thursday, 6 December (18:15 - 19:45)

Contact: Sarah Connors sarah.connors@universite-paris-saclay.fr

Chapter 5 takes sustainable development, poverty eradication and reducing inequalities as the starting point and focus for an analysis. It considers the complex interplay between sustainable development, including Sustainable Development Goals (SDGs) and climate actions related to a 1.5°C warmer world. The chapter also examines synergies and trade-offs of adaptation and mitigation options with sustainable development and the SDGs and offers insights into possible pathways, especially climate-resilient development pathways toward a 1.5°C warmer world. This session will discuss the main findings from the chapter, with presentations from IPCC authors and responses from external stakeholders. A panel discussion with questions from the audience will conclude the session.

COP24, Katowice (Pavilion H3)

IPCC Special Report on 1.5°C – Chapter 5

Thursday, 6 December (18:15 - 19:45)

Provisional Agenda

Opening and Welcome		
18:15-18.20	Welcome and Introduction	Debra Roberts IPCC WGII Co-Chair
IPCC Special Report on 1.5°C – Chapter 5		
18:20-18.40	Key findings from Chapter 5: Strengthening the global response in the context of sustainable development <i>15 mins talk with 5 mins Q&A</i>	Joyashree Roy Chapter 5 Lead Author
18:40-18.50	Adaptation and Climate Resilient Development Pathways (CRDP) <i>Deep dive presentation: 10 mins talk</i>	Bronwyn Hayward (pre-recorded) Chapter 5 Lead Author
18:50-19.05	Synergies and Trade-offs with the SDGs <i>Deep dive presentation: 10 mins talk and 5 mins Q&A</i>	Diana Liverman (remote) Chapter 5 Lead Author
19:05-19.15	Panel Responses: International Institute for Environment and Development (IIED) German Development Institute / Deutsches Institut für Entwicklungspolitik (DIE)	Saleemul Huq Sander Chan
19.15-19.30	General Discussion	
19.30-19.35	Closing remarks	Debra Roberts IPCC WGII Co-Chair
