

## COP24, Katowice (Pavilion H3)

### **Research Needs for the IPCC 6th Assessment Cycle: a WG III perspective**

7 December 2018 (11:30 - 13:00)

**Organizer:** Jim Skea, Co-Chair, IPCC Working Group III (Mitigation)

The objective of this panel session is to highlight the key elements of the IPCC WGIII AR6 report and identify potential research areas that could contribute to the AR6. Topics to be covered by the panel will include mitigation pathways and the long-term temperature goal; sectoral perspectives; and behavioural aspects.
