

Partnering with the IPCC – The Scholarship Programme

7 December 2018 (15:00 - 16:30)

Contact: Mxolisi Shongwe (mshongwe@wmo.int)

The IPCC Scholarship Programme was established following the Nobel Peace Prize 2007, which was awarded jointly to IPCC and H.E. Albert Arnold (Al) Gore Jr. for the efforts to build up and disseminate greater knowledge about man-made climate change, and to lay the foundations for the measures that are needed to counteract such change.

The Scholarship Programme has also benefited from donations and contributions from individuals and organizations supporting the aim and objectives of the Fund. Two funding partners who have significantly contributed to support the Programme are the Prince Albert II of Monaco Foundation and the Cuomo Foundation.

The event will discuss the aims and objectives of the Scholarship Programme, and its evolution since the first round of awards (2011–2013), highlighting the major achievements and opportunities to contribute to the efforts of the IPCC and its partners in building capacity in the understanding and management of climate change.

COP24, Katowice (WMO/IPCC Pavilion)

Partnering with the IPCC – The Scholarship Programme

7 December 2018 (15:00 - 16:30)
